

# Public Speaking Activity

## Chapter 14-Speaking to Inform Including/Excluding Information

The purpose of this activity is to show the complexity in informative speeches and allow you to differentiate between what information to include and what information to eliminate. After being assigned a topic, work out a two-minute explanation designed for an audience that knows absolutely nothing about the topic. Your group will then present the explanation orally to the class. You may use the back of this sheet.

Topics:

How to tie a shoe lace

How to change a car tire

The basic rules of baseball

How to access the Internet

How to program a VCR

The basic rules of checkers
